Summary

I am Full Stack Developer with hands-on experience in building web applications using modern technologies such as React, Next.js, Node.js, and Express. Skilled in designing REST APIs, implementing responsive user interfaces, and managing databases with PostgreSQL and MongoDB. Designed and implemented efficient, scalable, and user-friendly applications, consistently seeking new knowledge and incorporating emerging technologies into projects.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript
- **Frontend:** ReactJs, NextJs, TailwindCSS
- **Backend:** NodeJs, Express.js, REST API, JWT Authentication, Redis
- **Database:** Postgresql, MongoDB, Supabase
- **Version Control:** Git, Github
- **DevOps & Tools:** Docker, Vercel, Railway

Formal Education

Universitas Islam Negeri Jakarta

August 2020 – December 2024

Bachelor's Degree in Islamic Economics

GPA : 3.52/4.00

Non-formal Education

PT DumbWays Indonesia Technology

April 2025 - October 2025

Full Stack Developer

- Learned HTML, CSS, and JavaScript. Used React.js and Next.js technologies for front-end development. Build responsive and dynamic web applications with a better user experience.
- Created API using Node.js with the Express.js framework. Gained understanding of backend logic and database storage through queries and ORM.
- Completed tasks to create several projects, namely social media applications, online shops, Gemini AI integration, etc. Learned how web applications are deployed and scaled for public use.

Work Experiences

Fundraising Zakat & Monthly Ramadhan Event

March 2025 – April 2025

- Engaged with 75+ potential donors daily to participate in alms and zakat programs during Ramadhan.
- Provide a clear explanation of the program to be implemented, develop presentation and communication skills.
- Maintained accurate daily financial records and reported contributions to supervisors.

Private Tutor Elementary and Middle School Students

July 2023 – August 2024

- Simplifying complex material into easy-to-understand lessons, resulting in a 80% improvement in students' analytical and problem-solving skills.
- Consistently developed 20 targeted practice questions every two days to see students' progress.
- Monitored student progress and submitted structured daily reports to parents.

Related Projects / Portfolio

Circle - Social Media App

- Built with PostgreSQL, Express, React, Node.js.
- A social media application for sharing your activities

Backend: <https://github.com/fadliraamdhn/circle-api>

Frontend: <https://github.com/fadliraamdhn/circle-ui>

E-commerce Clone App

- Built with PostgreSQL, Express, React, Node.js.
- E-commerce clone application that have filter, pagination, and search for easy buying product.

Repository: <https://github.com/fadliraamdhn/mini-online-store-topup-API>

Dora – Do, Review, Achieve (Todo App)

- Built with React, TailwindCSS, Express, and Supabase.
- Todo list aapplication like Trello that can easily manage your daily task, simplify just drag and drop the task.

Repository: <https://github.com/dora-taskify>

Steam Burn (Roasting Steam Profile)

- Built with Next.js and Gemini AI for response.
- Roasting application to roast your steam profile account.

Demo Live: <https://steam-burn.vercel.app/>

Landing Page

- Built with Next.js and Tailwind Utility. (not responsive dekstop only)
- Landing page for your business.

Demo Live: <https://slicing-figma-ten.vercel.app/>
